

ICMPC 2021

The 3rd International Conference on Materials Physics and Chemistry (ICMPC 2021) will be held from January 8-10, 2021 in Sanya, China. This Conference will cover issues on Materials Physics and Chemistry. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

CALL FOR PAPERS

C o n f e r e n c e D a t e : January 8-10, 2021

V e n u e : Sanya, China

R e g i s t r a t i o n D e a d L i n e : January 8, 2021

Topics of interest for submission include, but are not limited to :

Carbon materials
 Energy Materials
 Porous Materials
 Ceramic materials
 Corrosion science
 Magnetic materials
 Optoelectronic Materials
 Polymers
 Composite Materials
 Soft Matter Materials
 Environmental Materials
 Crystalline Solids
 Semiconductors
 Superconductors
 Materials Physics and Chemistry
 Nanofabrication
 Phase change Materials (PCM)
 Catalytic materials
 Computational materials science
 Welding and Joining
 Oxidation and Corrosion
 Surface and Interface Science
 Quantum Science and Technology
 Advanced Technologies/Materials
 Materials testing, processing and characterization
 Fluids and liquid crystals
 Glass
 Sustainable Materials
 Other Related Topics

Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

Venue

Sanya is superior in geography climate and natural resources. It is known as “the oriental Hawaii” and “Sunshine City” because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter. Within the city, well-known tourist spots are dotted everywhere--the national Yalong Tourist Area, the Tianyahaijiao, the Great Eastern Sea, the Luhuitou Peninsula, Sanya Bay and the Luobi Grotto. Besides these, there remain the ancient Yazhou City and relics and a sculpture of the Monk Jianzhen of the Tang Dynasty, who landed ashore to avoid the storm when he was sailing eastwards to Japan.
